## PYRO-SAFE<sup>®</sup> CT Cable Tube

The extended product range - now in three different sizes

# The Simple PYRO-SAFE® CT Penetration Sealing System at a Glance

## Your Benefits

### Simple Penetration Seal in Different Sizes

- ✓ Separable housing for installation around existing lines
- ✓ 100 % utilisation of the PYRO-SAFE® CT Cable Tube diameter
- ✓ Suitable for 68 mm socket holes and 100 mm core holes
- ✓ Easy reuse without any subsequent measures
- ✓ Extremely suitable for planning with BIM

### Versatile Use

- ✓ Single or group arrangement for sealing existing lines or as a spare seal for future installations
- ✓ Design variant with one-sided installation for use in system floors
- ✓ Can also be used in combined penetration seals
